# Control Your Critical Spaces

*Deliver Superior Benefits*

The innovative, award-winning **AccuValve** delivers superior airflow control in critical environments. Its very low energy use, “true” airflow measurement and ease of application and installation are just the beginning.

For fume hood environments, the award-winning **Accutrol AVC Fume Hood Control System** delivers unsurpassed control of your fume hood with the intuitive Accutrol Insight graphical software.

Our market-leading products are the choice of the world’s most demanding and prestigious clients.
