

Weatherproof Extension Cable

The weatherproof extension cable is intended for applications where the standard outdoor-rated cables provided with the Vortek are not long enough to connect from the transmitter to the probe sensor.

Part Number: 23-0115

Specifications:

Ratings:

Waterproof Rating: IP67

RoHS Compliant

Operating temperature Range: -40° to 80°C (-40° to 176°F)

Cable shield is terminated to EMI connector shell

Installation:

- 1 – Insert the male end of the factory weatherproof cable into the female end of extension cable, push in and secure by tightening the screw nut.
- 2 – Insert male end of the extension cable to the probe/sensor electronics enclosure connector, push in and secure by tightening the screw nut.

⚠ Note: If cable is to be run through conduit, be sure to size the conduit to accommodate the cable connectors.
